

Crack cart and melter selection checklist

Use this checklist for the actual service, product, site and jurisdiction. Leave missing evidence unresolved until the responsible person confirms it. Record the decision and its source before proceeding.

Business job date and responsible person

- ☐ Choose repair method, material and planned job volume before choosing a machine.
- ☐ Confirm direct fire or oil jacket compatibility from the actual material and machine documents.
- ☐ Compare cart application, stationary melting, transfer and transport arrangements.
- ☐ Check safe payload, fuel, guarding, operator training and approved accessories.
- ☐ Record exact model specifications and matching manual source.
- ☐ Ask about service support and keep a model specific spare parts register.
- ☐ Use the matching manual for inspection, cleaning and upkeep intervals.
- ☐ Request PaveStrong published model specifications before comparing capacity, heating method or upkeep.

Unresolved items evidence and next action

Decision owner and follow up date

Sources and record notes

Author NPMCA. Worksheet version 1.0; guide record as of 2026-10-11. Technical limits and prices must come from the exact current product instructions, official rule or dated written quote.
